

What Our Students Say

EC Malta - Volunteer Testimonial

Name: NAKA Shuhei (Mr)

From: Japan

School: EC Malta

Course: Academic Year 30

Initial Level: Intermediate

*"I have obtained precious experience through the voluntary service in the Maltese hospital. So I introduce my practice simply.
First of all, we received some lectures by a professional counsellor before we started to work with the patients. It was really helpful not only working there, because it included communicating with people and how to contact patients, but above all, at that moment I met many people who are Maltese and other students. And I still have relationship after I finish the voluntary service. It is pleasure to meet them.*

After the training, I started to work once a week for 3 hour. My main task was to play with children and to cooperate with the staff. For example, I read some books for them, made decorations for Christmas, and just talked about something with their parents while we were drinking and eating. That time was absolutely valuable for me.

In particular, I have spent a lot of time with my friends because of the voluntary service and we have understood each other more than before. We were 3 students from EC, South Korea and Chinese. One of them had already left Malta, but I've carried on keeping in touch. I think that voluntary service is a unique great experience and I'm so glad I joined this activity."

Naka Shuhei,
Japan
